

## Features and Benefits

The PowerCat Synergy Surface Mount Boxes are ideal for use in open office cabling. The attractive, contemporary design of the product family comprises of 1, 2, 4 and 6 port variants complete with DataGate shuttered connector. Synergy Surface Boxes offer simple, organised installation in areas where surface mount is the only option. Cable can be installed from the sides or base of the box.

PowerCat Synergy Surface Mount Boxes feature the DataGate Category 5E connector. This superior RJ45 IDC includes a unique integral shutter that not only protects the connector from dust and contaminants, but the ingenious spring-loaded design also ejects improperly seated patch cords.

The DataGate connector is dual colour coded for either 568A or 568B wiring schedules and is RJ11 compatible. Suitable for high-speed data transmission, the DataGate Category 5E connector has been designed to exceed the highest electrical performance standards in the industry and has been independently tested and verified by ETL SEMKO for Category 5E component compliance.
